

SAVINGS BY THE MINUTE

Innovative, Easy-to-Use Color Touch Screen PC

The TouchTime®II advanced workforce management terminal provides sophisticated employee self service capabilities for a wide range of businesses. It is ideal for companies that employ tens, hundreds or thousands of employees – yet because of the nature of their work – do not provide every employee with a personal computer.

TouchTime II streamlines the workforce management process. It allows companies to provide employees with an array of data including: work schedules, salary accruals, FMLA leave status, vacation updates and more. Employees can also use the TouchTime II kiosk as an input device to submit information such as: the results of their shifts, vacation requests, leave requests and benefits modifications.

This Windows 8 touch screen tablet is enclosed in a ruggedized exterior, based on a Windows tablet, and features integrated peripherals for card reader and fingerprint biometric technologies. It is fully programmable via metro-application development tools for Windows 8, in conjunction with CMI libraries for biometric fingerprint readers, smart card readers and other external peripherals. Touch Time II also incorporates a Zigbee mesh wireless subnet designed to be a gateway for up to 98 SimpleTime™ terminals, consuming only one network IP address.

Touch Time II's advanced functions automate many business processes, minimizing time-consuming manual data entry for human resource and operations departments.

TouchTime II with Windows 8 Benefits:

The ultimate flexibility at the touch of the screen. With an array of operating systems and multiple modular peripheral configuration options, the TouchTime II is ready to work for you.

- Microsoft Windows 8
- Display 10.1" HD Capacitive
- 5 Finger Touch
- CPU Intel ATOM Z-2760
- Low-Power Multimedia Platform
- 32GB or 64GB Storage Options
- CMI API for Peripherals
- Wi-Fi (802.11a/b/g/n)
- Secure Web Protocols HTTPS
- Bluetooth 4.0 Technology
- Integrated Card Readers
- Integrated Biometric Readers
- Optional Ethernet 10/100
- Optional Zigbee Mesh
- Rugged Enclosure & Multiple Mounting Options
- Configurable Power Options

Specifications & Features

OS / Memory & Processor

- Windows 8
- 32 GB/64 GB Internal Storage
- 1.5GHz Intel ATOM Z2760 Dual Core

User and Communication Interface

- 10.1" 5-Point Multi-Touch HD Capacitive Display, 16:9 Aspect Ratio
- Wi-Fi (802.11a/b/g/n)
- Bluetooth 4.0 Technology
- Optional Ethernet 10/100
- Optional Zigbee

IO Ports

- Full-Size USB 2.0 / Access Relay
- Panic Button

Physical

- 12.5 X 8.0 X 3.5 Inches w/o Wallmount
- Approximate Weight: 3.00 lbs

Sensors

- Ambient Light Sensor

Cameras and A/V

- 2 MP, 720p HD Life Cams, Front-Facing
- Two Microphones
- Stereo Speakers

Auto-ID

- 2 Reader Ports
 - Barcode
 - Magnetic
 - Proximity (HID, MOTOROLA)
 - Smartcard (MIFARE®, iCLASS®)
 - Biometrics (Fingerprint)

Environmental

- Operational Temp: 0° to +50°C (32° to 122°F)
- Storage: -20° to 70°C (-4° to 158°F)
- Humidity: 0 to 90% Non-Condensing
- Electrostatic Discharge: Min. 8 KV

Power

- 24W Power Supply.
- 2 Cell LI Polymer Battery
- POE Optional
- 25-foot Configurable Power Cord
